Maths → seeing as so many of you are doing lots of yummy cooking why not practise your measuring skills?

- ✓ Compare the weight of things by hand. Which is the heaviest? Which one is the lightest?
- ✓ Using household scales if available - how many pencils weigh the same as a book?
How much sugar weighs the same as an egg?
- ✓ Bake some goodies and get your child to read the recipe and then weigh out ingredients by reading the scale themselves.

English → using recipes and practical activities as a talking point.

- ✓ Make something together and talk about what you are doing. Ask questions about what they are doing and what comes next.
- ✓ Draw a set of pictures or use photographs to write a simple set of instructions. Or you could record the process and post on the school website to help other children.

PSHE → make a picture tree showing all the family and friends you have been missing. You could draw their faces on apples or flowers to add colour. Children could practise

writing the names under each picture using capital letters for names. Share it on the school website.
